Installation Instructions for
Essex (Compact Fluorescent)

GENERAL PRODUCT INFORMATION:
These fixtures are intended to be installed utilizing NEC compliant junction boxes.
This product is suitable for indoor damp locations.

Mount the Sconce

1. Loosen the Allen-head screw and remove the upper arm.
2. Connect the braided copper wire to a suitable ground in accordance with local electrical codes.
3. Connect the white fixture wire to the neutral 120 volt power line wire with a wire nut.
4. Connect the black fixture wire to the hot 120 volt power line wire with a wire nut.

5. Properly place all wires and wire nut connections into the electrical box.
6. Line up two mounting plate slots with the two electrical box holes.
7. Level the mounting plate vertically and secure it to the electrical box with the two #8-32 screws.

CAUTION - RISK OF FIRE
This product must be installed in accordance with the applicable installation code by a person familiar with the construction and operation of the product and the hazards involved.
Use minimum 90°C supply conductors.
Install the Lamp

1. Push the lamp pins into the large portion of the socket slots and rotate it clockwise to lock it in place securely.

To install a fabric shade, continue to section 2B.
To install a glass shade, continue to section 2C.

**CAUTION:** To reduce the risk of a burn or electric shock during relamping, disconnect power to the fixture.

Use **MAX 18 Watt**
Type Self-Ballasted GU24 Base Spiral Compact Fluorescent Lamp.

---

Install the Fabric Shade

2. Carefully slide the shade into the slot on the lower arm while sliding the hanger bar onto the clips.
3. To secure the shade, attach the upper arm by tightening the Allen-head screw.

Install the Glass Shade

2. Remove the screw and washer from the upper arm.
3. Slide the screw with washer through the hole in the shade and screw it back into the upper arm.
4. Slightly loosen the thumbscrew in the lower arm.
5. Carefully slide the shade into the slot on the lower arm.
6. Tighten the Allen-head screw.
7. Reaching in from the bottom, push the shade support plate against the shade and tighten the thumbscrew.
