GENERAL PRODUCT INFORMATION:

These fixtures are intended to be installed utilizing NEC compliant junction boxes. This product is suitable for indoor damp locations. Power consumption is rated at 10 watts.

Mount the Sconce

1. Loosen the Allen-head screw and remove the upper arm.
2. Connect the braided copper wire to a suitable ground in accordance with local electrical codes.
3. Connect the white fixture wire to the neutral power line wire with a wire nut.
4. Connect the black fixture wire to the hot power line wire with a wire nut.

5. Properly place the transformer and all wires into the electrical box.
6. Line up two mounting plate slots with the two electrical box holes.
7. Level the mounting plate vertically and secure it to the electrical box with the two #8-32 screws.
8. To install a fabric shade, continue to section 2A. To install a glass shade, continue to section 2B.
Install the Fabric Shade

1 Carefully slide the shade into the slot on the lower arm while sliding the hanger bar onto the clips.

2 To secure the shade, attach the upper arm by tightening the Allen-head screw.

Install the Glass Shade

1 Remove the screw and washer from the upper arm.

2 Slide the screw with washer through the hole in the shade and screw it back into the upper arm.

3 Slightly loosen the thumbscrew in the lower arm.

4 Carefully slide the shade into the slot on the lower arm.

5 Tighten the Allen-head screw.

6 Reaching in from the bottom, push the shade support plate against the shade and tighten the thumbscrew.
