

LINE - VOLTAGE HEADS

Render LED Head LED T20

DESCRIPTION

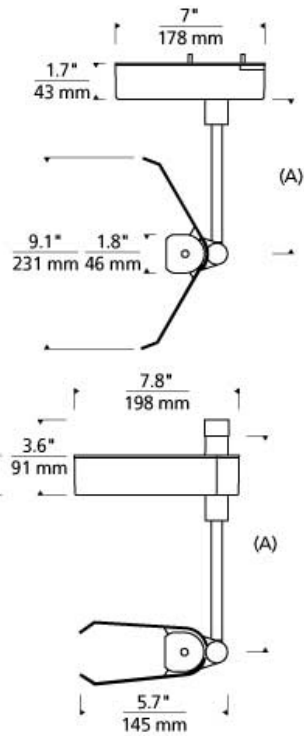

The Render display head by Tech Lighting combines ultra-modern design style with high-functionality. This sophisticated display head features a unique clam shell design that cleverly shelters the line-voltage LED lamping. The clam shell design is optimal for vertical light distribution with adjustable horizontal cutoff controls ranging from 2° to 120°. The Render is available in two contemporary finishes and is compatible with the T-Trak lighting system to further enhance performance and style. This dynamic display head is ideal for commercial lighting applications such as retail stores, libraries and galleries. The Render ships with a fully dimmable integrated LED. The smoothly diffused light is ideal for commercial applications such as accent, retail, or display where a well-defined wall wash effect is desired. The clamshell design is easily adjusted and available high or low output at 90 CRI with multiple CCT options.

OTHER

Net Lumens: Low Output, 1000 High Output, 1500 Wattage: Low Output, 15W High Output, 25W Adjustable Vertical Distribution: 2° - 120° Vertical Pivot: 160° Rotation: 360°

WEIGHT

4.5-5lb / 2.04-2.27kg ±
